3 POINT HITCH MOUNTING SELECTION CHART

Mount Type	Hitch	Series	Frame Support	Flat Back	Pivot Frame	Mount Kit	Hydraulic Kit	Manual	Bulletin
<p>3 Point Mount (3N) - Fendt/Challenger 1000 Series - Requires 2 auxiliary hydraulic circuits to operate cylinders. - Previous pivot frame was 789000 - Support frame component 789099 was 789092. **Disclaimer** - It is recommended to use a 3-Point Support Frame for any ground engaging implement on front 3-point mounts. Most front 3-points are not designed to handle a ground engaging tool like a dozer blade. - A 3-Point Support Frame supports the lower links of the front 3-point and mounts to structurally sound components of the tractor (such as the drawbar). Using a front 3-Point Support Frame will alleviate, but not eliminate stress on the front 3-point from ground engaging implements. - Some front 3-points are rated for ground engaging tools, in this case, our 3-Point Support Frame is not required (P/N's 789080, 789099). Contact manufacturer to inquire whether 3-point is rated for ground engaging tools. - It is not recommended to mount a 5900 blade to any tractor exceeding 500HP.</p>	3N	5900 (150-500HP)	789099 789080		789070		791624	142631	138061
